Environmental Pollution **78** (1992) iii–iv

Contents

Editorial 1

Section 1—Physiological effects on plants and animals

The mixing zone between limed and acidic river waters: complex aluminium chemistry and extreme toxicity for salmonids 3
B. O. ROSSELAND, I. A. BLAKAR (Norway), A. BULGER (USA), F. KROGLUND, A. KVELLSTAD, E. LYDERSEN (Norway), D. H. OUGHTON (UK), B. SALBU, M. STAURNES & R. VOGT (Norway)

Changes in trace metal concentrations in lake water and biota during experimental acidification of Little Rock Lake, Wisconsin, USA 9
SCOTT O. KING, CARL E. MACH & PATRICK L. BREZONIK (USA)

Reproductive status, blood chemistry, gill histology and growth of perch (*Perca fluviatilis*) in three acidic lakes 19
PEKKA J. VUORINEN, MARJA VUORINEN, SEPPO PEURANEN, MARTTI RASK, ANTTI LAPPALAINEN & JARI RAITANIEMI (Finland)

Section 2—Effects on animal communities

Episodic events

Comparison of episodic acidification in Canada, Europe and the United States . . 29
P. J. WIGINGTON JR (USA), T. D. DAVIES, M. TRANTER (UK) & K. N. ESHLEMAN (USA)

Mechanisms of episodic acidification in low-order streams in Maine, USA . . . 37
JEFFREY S. KAHL, STEPHEN A. NORTON, TERRY A. HAINES, ELIZABETH A. ROCHETTE, RICHARD H. HEATH & STEPHEN C. NODVIN (USA)

Water chemistry and fish community responses to episodic stream acidification in Pennsylvania, USA 45
ROBERT F. CARLINE, DAVID R. DEWALLE, WILLIAM E. SHARPE, BRIAN A. DEMPSEY, CHARLES J. GAGEN & BRYAN SWISTOCK (USA)

Effects on aquatic birds

A review of the likely causal pathways relating the reduced density of breeding dippers *Cinclus cinclus* to the acidification of upland streams 49
STEPHANIE J. TYLER & S. J. ORMEROD (UK)

Towards a model of acidification effects on waterfowl in Eastern Canada . . . 57
P. J. BLANCHER, D. K. MCNICOL, R. K. ROSS, C. H. R. WEDELES & P. MORRISON (Canada)

Changes in whole lake systems

Contemporary (1979–1988) and inferred historical status of headwater lakes in North Central Ontario, Canada 65
J. R. M. KELSO, M. A. SHAW & D. S. JEFFRIES (Canada)

Complex biological responses to the experimental acidification of Little Rock Lake, Wisconsin, USA. 73
K. E. WEBSTER, T. M. FROST, C. J. WATRAS, W. A. SWENSON, M. GONZALEZ & P. J. GARRISON (USA)

Environmental Pollution (**78**) (1992)—© 1992 Elsevier Science Publishers Ltd, England. Printed in Great Britain

Evidence of biological recovery in acid-stressed lakes near Sudbury, Canada . . . 79
W. KELLER, J. M. GUNN & N. D. YAN (Canada)

Factors affecting trace-metal bioaccumulation in Finnish headwater lakes . . . 87
P. IIVONEN, S. PIEPPONEN & M. VERTA (Finland)

Effects on specific animal or plant taxa

Abundance and population structure of perch (*Perca fluviatilis* L.) in some acidic Norwegian lakes 97
TRYGVE HESTHAGEN, HANS MACK BERGER, BJØRN MEJDELL LARSEN, TERJE NØST & IVER H. SEVALDRUD (Norway)

Benthic macroinvertebrate community structure in 20 streams of varying pH and humic content 103
ANDERS KULLBERG (Sweden)

Lake acidity and mercury content of fish in Darwin National Reserve, Russia. . . 107
TERRY A. HAINES (USA), VICTOR KOMOV (Russia) & CHARLES H. JAGOE (USA)

A palaeolimnological assessment of diatom production responses to lake acidification . 113
N. J. ANDERSON & I. RENBERG (Sweden)

Changes in the density, population structure, growth and reproduction of perch, *Perca fluviatilis* L. in two acidic forest lakes in southern Finland 121
MARTTI RASK (Finland)

Effects of acidic water on freshwater snails: results from a study of 1000 lakes throughout Norway 127
JAN ØKLAND (Norway)

Section 3—Amelioration methods and their effects

Loch Fleet: liming to restore a brown trout fishery 131
GWYNETH HOWELLS, T. R. K. DALZIEL & A. W. H. TURNPENNY (UK)

Acid waters in upland Wales: causes, effects and remedies 141
A. P. DONALD & A. S. GEE (UK)

The response of stream-dwelling fish to liming 149
ERIK DEGERMAN & MAGNUS APPELBERG (Sweden)

Mitigation of low stream pH and its effects on salmonids. 157
GILLES L. LACROIX (Canada)

Improvement of breeding success of the moor frog (*Rana arvalis*) by liming of acid moorland pools and the consequences of liming for water chemistry and diatoms 165
MARTIJN J. S. BELLEMAKERS & HERMAN VAN DAM (The Netherlands)

Recovery of acid-sensitive species of Ephemeroptera, Plecoptera and Trichoptera in River Audna after liming 173
ARNE FJELLHEIM & GUNNAR G. RADDUM (Norway)

The effect of liming agricultural land on the chemistry and biology of the River Esk, north-west England 179
MARK DIAMOND, DAVID HIRST, LINTON WINDER, DAVID H. CRAWSHAW & RAYMOND F. PRIGG (UK)

Selected Bibliography 187
